Handgards[®]

Pan Liners

Handgards pan liners can save time and money for your establishment while also improving the quality of your food. Our pan liners can eliminate labor intensive jobs such as scrubbing and scouring baked-on foods. They also make your food safer since the food never touches the pan. This prevents any chance of surface contamination.

Ovenable Pan Liners and Ovenable Roasting Bags are made of nylon material that can withstand temperatures up to 400 °F. These pan liners are used to cook, serve, and store food.

Steam Pan Liners are made of high-density polyethylene material that can withstand temperatures up to 220°F. They are used to hold, transport, and serve food from steam pans. **THESE PAN LINERS ARE NOT DESIGNED FOR USE IN OVENS**

For optimal results it is recommended that you follow your own procedure or process when testing food items.

OVENABLE PAN LINERS AND OVENABLE ROASTING BAGS

- Cook, bake, and roast up to 400° F.
- Safe to go directly from freezer to microwave, steam table, slow cooker, or oven.
- Non-closeable Ovenable Pan Liners are perfect for baking, warming, transporting, and serving.
- Ovenable Roasting Bags retain food moisture for better quality.
- For better results add 1/4" of water to pan before cooking.

STEAM PAN LINERS

- Perfect for steam table warmers, food warmers, slow cookers and soup pots.
- Maximum temperature of 220° F.
- Go directly from freezer to microwave.
- Available to fit all standard steam pan sizes.
- For better results add 1/4" of water to pan before cooking.
