

CUT RESISTANT GLOVES

410601282 PS-1282 HGI CUT RESISTANT GLOVE

CUT RESISTANT GLOVES

Handgards Cut Resistant Gloves offer both dexterity and protection to foodservice staff working with knives, slicers and graters. Made of a blend of high-performance, ultra-strong Spectra and polyester fibers, these gloves provide exceptional abrasion resistance throughout the entire area of the glove. Handgards Cut Resistant Gloves' sturdy, yet flexible material allows users to move with more agility, essential for high-skill tasks like filleting fish or butchering meats. With this protection, staff can work more comfortably without worrying about cut injuries. Handgards Cut Resistant Gloves are a tool that can help add skill and confidence, resulting in faster and more precise cutting and slicing.
