

HANDGARDS® SNUGFIT™ BLACK VINYL GLOVES

SNUGFIT™ BLACK VINYL GLOVES

Handgards Snugfit™ Black Vinyl gloves feature a cost-effective form-fitting design with a black color that provides a professional appearance.

Handgards Snugfit™ Black Vinyl Gloves offer increased dexterity and sensitivity over looser gloves, making them a cost-effective alternative to latex and nitrile gloves. As an added bonus, the black color of these gloves offers a professional appearance that discreetly hides grease and stains and makes it easy to identify pieces of glove if they should fall into food.
